

# The Internship Program

# About Gaia

Gaia Smart Cities is a pioneering Internet of Things company creating innovative and sustainable solutions for a smarter tomorrow.

## About Gaia

Gaia is one of its kind Indian company that will build a country-wide Telco-grade IOT (Internet of Things) Platform and a Low-Power Sensor Network for Smart City Solutions.

## What We Do

Gaia offers services around Consulting, Networks, Managed Services and Platforms; and is actively engaged in developing plans for a clutch of cities under the smart cities initiative by Gol.

## Solutions

Gaia has been engaged in developing and customising solutions in the following areas:

- Smart Metering
- Smart Mobility
- Smart Asset Tracking
- Smart Waste Management
- Smart Building Management

# The Internship Program

Gaia offers an exciting environment to work on cutting edge technologies for developing Smart Solutions & Products

## Criteria

2<sup>nd</sup>/3<sup>rd</sup> Year B.Tech students from following departments can apply:

- Electronics & Communication Engineering
- Computer Science & Engineering
- Instrumentation & Control Engineering
- Electrical Engineering

Students should have a minimum GPA of 7.0, and no back-logs.

## Internship Opportunities

Internship projects would be around connecting various kinds of sensors with communication modules to establish communication for sensor data acquisition and actuator control. Hands-on experience in atleast one of the following is a must:

- Assembly Language (ARM, TI MSP)
- High level programming languages ( C, C++, Java)
- VLSI design (PCB Layout, Synthesis, Timing Analysis)
- Experience with Cadence Design tools

## Deadline

Interested candidates send your CVs by 15<sup>th</sup> March 2016.

- Subject of the mail should be 'Application for Gaia Internship Program'.
- In the mail body, mention 3 keywords from your technology skillset which make you a good candidate for internship.

## Apply for Summer Internship

If you love challenges, have a passion for innovation, and a burning desire to work on cutting edge technologies, be a part of the Gaia Internship Program.

It would be 8-10 weeks internship based out of New Delhi.

Selection would be based on CV shortlisting, post which Skype/F2F interviews will be conducted.
